Collaboration

Jira, Confluence, Git, Miro, Microsoft365, ChatGPT

Hello, I'm Loane!

I design clear and functional user interfaces that balance aesthetics and usability. With experience in the HealthTech industry, I translate complex data into accessible insights for professionals. My skills include design systems, prototyping, and solid knowledge of web technologies (CSS, styling, and component libraries). I work closely with developers and stakeholders to create efficient and scalable digital solutions.

Experience

2020 - 2025
5 years

SOPHiA GENETICS - Senior UX/UI Designer
Rolle (VD)

Designed **web interfaces** for new and existing products, focusing on simplifying **user experiences** for doctors and clinicians.

Maintained the company's **design system**, ensuring **developers** used the correct components and collaborated with them to optimize **layouts and performance**.

2017 - 2020
3 years

SOPHiA GENETICS - Graphic Designer
Saint Sulpice (VD)

Designed **visual content** for marketing campaigns, including **branding**, **print** materials, **digital** assets, and social media.

Managed **video** production, live streaming, and audiovisual needs, ensuring high-quality content across platforms.

2015 - 2016
6 months

Bimpage Communication - Graphic Designer
Geneva

2014
3 months

GlobalVision Communication - Internship (Drone imagery + Web)
Ho Chi Minh City (Vietnam)

Education

IAE Savoie Mt.Blanc - Licence, Infocom - Hypermedia
Annecy | 2012 - 2015
